JTB Business Travel Solutions, Inc.

## JTB Group's "Bizvance JTB Booking" Integrates with RAKUS's "Rakuraku Seisan"

~ Achieving Smoother Operations from Business Travel Booking to Expense Management ~

JTB Business Travel Solutions, Inc. (headquartered in Koto-ku, Tokyo; President & CEO: Masahiro Harada; hereinafter referred to as "JTB-CWT"), a JTB Group company that provides the business travel booking system "Bizvance JTB Booking," will launch data integration from February 2027 (planned) via the newly released "External Statement Integration API" of "Rakuraku Seisan," a cloud-based expense management system provided by RAKUS Co., Ltd. (headquartered in Shibuya-ku, Tokyo; Representative Director: Takanori Nakamura; hereinafter referred to as "RAKUS").

This integration allows actual business travel data utilized via "Bizvance JTB Booking" to be linked to "Rakuraku Seisan." This streamlines operations from business travel booking to expense management, contributing to reducing the workload for business travelers, approvers, and expense managers.

■ Image of Operational Improvement: Smoother Operations from Business Travel Booking to Expense Management

For example, companies where business travel occurs multiple times a month can expect the following operational improvements:

- Flight tickets and hotels can be booked together through a single system, "Bizvance JTB Booking," reducing the booking workload for business travelers. Additionally, corporate unified billing eliminates the need for employees to pay out-of-pocket, improving convenience for business travelers.
- After returning from a business trip, selecting the integrated actual business travel data on the business travel expense screen of "Rakuraku Seisan" automatically imports the details into the statement. In

addition to reducing manual input, there is no need to attach individual receipts or invoices, allowing applicants to complete the expense application simply by verifying the contents. Approvers and accounting personnel can streamline the matching and verification of travel details and expenses, reducing the man-hours required for send-backs and verification.

Moving forward, both companies will work as integration partners to help companies achieve greater operational efficiency and cost reductions in expense management, aiming to deliver even better services.

■ About "Bizvance JTB Booking"

"Bizvance JTB Booking" is a business travel booking and management system used by over 1,300 corporate clients. It realizes unified booking and centralized management of business travel, streamlining and simplifying travel-related operations. Equipped with online booking for domestic and international flights and hotels as well as profile management functions for business travelers, and report extraction, settings, and maintenance functions for administrators, it contributes to operational efficiency and cost reduction.
